

COMMODORE AMIGA™

Buyer's Guide to software & accessories

Volume 3

Coming Soon!

The next issue of the Commodore-Amiga Buyer's Guide

Many new accessories and software programs will be featured. Also, updated material from Commodore on our latest hardware and peripherals. You will not want to miss this issue.

Hot off the Press!

If you will take a few minutes to fill in the questionnaire on the reverse side of this card, we will send you a complimentary copy of the next available edition of the Buyer's Guide. Please send in your questionnaire today.

CONTRIBUTING COMPANIES 81

PRODUCT DIRECTORY 83

The A500

The Amiga 500 comes equipped with 512KB of RAM. Optionally, it can expand to IBM (with a real time clock.) The A500 is ideally suited to meet the needs of a wide variety of users who demand state of the art computer performance, power and flexibility in a convenient and attractively priced package that features outstanding graphics and sound capabilities.

The A500 consists of the Main Unit and a separate power supply. The Main Unit includes a Motorola 68000 microprocessor, 512KB of RAM, a 3½ inch floppy disk drive, a keyboard with 10 function keys and a numeric keypad, and a variety of connectors and ports through which a monitor and peripheral equipment (printer, modem, etc.) may be attached.

501 RAM EXPANSION CARTRIDGE

User-installable cartridge that adds 512KB of RAM to the Amiga 500. Contains a battery-backed real-time clock and calendar.

520 VIDEO/RF MODULATOR

Allows the Amiga 500 to use a composite color monitor and/or standard television set as a screen display. Includes an RF cable, RF switch box and audio Y adapter.

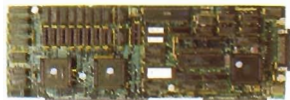

Peripherals

The A2000

The Amiga 2000 has 1MB of RAM and is expandable to a total of 9 megabytes of RAM. The A2000 is a powerful, versatile microcomputer that comes fully equipped to meet the stringent requirements of professional users. With its flexible expansion capabilities, the A2000 can be perfectly tailored to perform the most specific role, while retaining the ability to perform general computing tasks.

The A2000 includes a Main Unit and a detachable keyboard. The Main Unit includes a Motorola 68000 microprocessor, one megabyte of RAM, at least one 3 1/2 inch floppy disk drive, internal expansion capability (for RAM, other microprocessors, video, etc.), and connectors and ports for a monitor and a wide range of peripheral equipment.

2088 BRIDGE BOARD

Provides an 8088 co-processor with IBM PC[®] XT compatibility for the Amiga 2000. This allows the A2000 to run IBM[®]-compatible software (MS-DOS[®] 3.2) under Amiga control. Contains 512KB RAM and 16KB ROM, with interfaces for one internal and three external 5 1/4" floppy drives (daisy-chained). Also emulates a Centronics PC-compatible parallel port on the Amiga parallel port.

AMIGA 2020 5.25" INTERNAL DISK DRIVE

The Commodore Amiga 2020 is an internal 5 1/4" floppy disk drive for the Commodore Amiga 2000 with a formatted capacity of 360K bytes. When used with an Amiga Bridgeboard it reads and writes disk in standard IBM[®] PC format. This allows you to access over 10,000 software applications.

AMIGA 2010 3.5" INTERNAL DISK DRIVE

The Commodore Amiga 2010 is an internal 3.5" floppy disk drive for the Commodore Amiga 2000. Your expanding business and personal needs demand extra versatility and increased productivity. Add the 2010 to your Amiga 2000 computer system as an additional internal disk drive and enjoy valuable increased data storage. Together, the internal Amiga drive and an additional 2010 internal disk drive support a business environment with greater capacity and fast back-up capabilities.

2052 2MB RAM EXPANSION BOARD

A full-size, 100-pin card for the Amiga 2000 that provides AutoConfig memory expansion, with fast memory and full-speed access during system DMA.

2090 HARD DISK/SCSI CONTROLLER BOARD

Provides controller function for two ST506 hard disk driver on the Amiga 2000. Includes a built-in full SCSI interface for the connection of high-speed peripherals.

Hardware & Peripherals

Amiga 1000 Personal Computer System

Includes a detachable, full-size keyboard, built-in 3.5" drive and two-button mouse. The 256K RAM is expandable internally to 512K and externally to 8 megabytes. Screen resolutions range from 320 x 200 to 640 x 400 pixels. Palette of 4,096 colors, eight reusable sprites, 60/80 column color test, high-speed animation. High-quality speech and music, four voices in nine octaves. Multi-tasking capabilities. Able to run up to 50 overlapping windows simultaneously. RS232 and Centronics ports. Bundled with AmigaDOS, Amiga BASIC, tutorial.

Commodore 2002 Monitor Analog RGB and Digital RGBI high-resolution color monitor for both 40- and 80-column color applications. Built-in audio amplifier and speaker; headphone jack. Compatible with VCR's and television tuners, as well as all Commodore and Amiga computers.

1680 Modem/1200 RS

Hayes[®] compatible; 1200-baud data transfer rate. Allows access to all information networks that are available via conventional telephone lines. Can be used with both Amiga and IBM PC-compatible computers.

1050 Memory Expansion Cartridge

Expands the Amiga computer's memory to 512K, allowing access to the more sophisticated programs on the market. Easily installed behind the computer's snap-off front panel, no switch settings needed.

1010 3.5" External Disk Drive

Add the 1010 to your system for faster program access, increased data storage, and faster backups.

1300 Genlock

Allows you to combine the Amiga computer with a VCR camera to produce titles, captions and multi-layered special effects on video tape. Also can be used to create effects on laser disk or other visual media.

1020 5.25" External Disk Drive

Used with the Amiga Sidecar or PC Utility for IBM PC[®] disk compatibility, the 1020 reads and writes disks in standard IBM PC[®] format. Formatted capacity of 360K bytes.

1060 Sidecar

Provides complete IBM PC hardware and software compatibility for the Amiga. Allows MS DOS[™] software to run in an Amiga window while another software package runs in a different window. Contains three full-size PC expansion slots. Connects to the Amiga expansion bus and contains its own 5.25" disk drive.

Section 1

Hardware Peripherals

Take your Amiga to its limits with exciting accessories for control, speed, storage, and added capabilities.

Peripherals

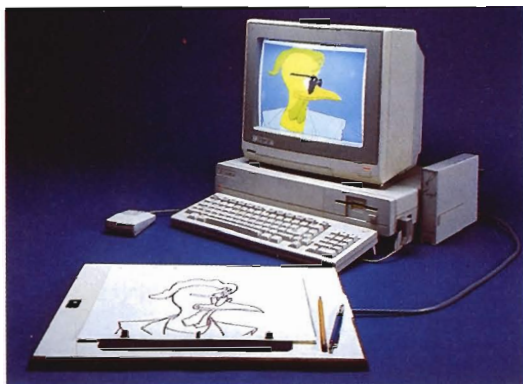

Easyl

Anakin
Research Inc.

Suggested retail price
\$499.00

Easyl is a 1024 x 1024 pixel pressure-sensitive digitizing tablet with an 8.5 in. by 13 in. drawing surface. The artist, designer, or animator uses an ordinary pencil or pen to draw images on paper into all popular paint, CAD, and animation packages on the Amiga. Frame buttons simulate mouse buttons, making the tablet useable as a mouse substitute for any Amiga software package utilizing the mouse. The frame can accommodate pegs for positioning of punched paper. Source available. Available for A500, A1000, A2000 machines.

The NEW IMPROVED AX2000 RAM BOARD gives your Amiga 1000 more memory for program and data storage. It also speeds program execution. Use it for multi-tasking, data storage or as a fast RAM drive. Our new RECOVERABLE RAMDISK feature allows retention of data, even after a soft reset.

The benchmark to which others are compared, the AX2000 provides superior performance at an exceptional price.

Peripherals

The New Turbo CPU Board

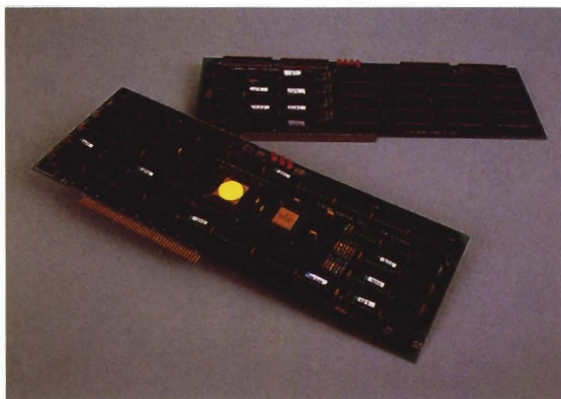

The new "award winning" CSA Turbo CPU board provides full 32 bit speed and power at 14.2 MHZ. Used with the Amiga 2000 or the new CSA Turbo Tower, this board maintains IBM compatibility while enhancing the Amiga's multi-tasking col-orgraphics features at 40 times the speed of the IBM PC AT. There's nothing like it on the market!

Also immediately available, boards that plug into the Amiga 2000, 100 pin expansion bus slots.

- 512 Kbyte and 2 Megabytes
- 32 bit static RAM Boards, running at 14 MHZ
- DMA SCSI Winchester interface boards
- LAN boards, Ethernet and ARCnet

All available from stock.

Mavis Beacon Teaches Typing

by
The Software Toolworks

Mavis Beacon Teaches Typing, from the publishers of the acclaimed Chessmaster 2000, is the finest typing tutor in the world.

Features:

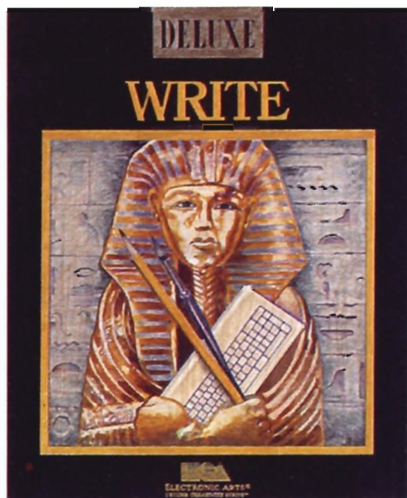

- Mavis Beacon is a true Artificial Intelligence System (to teach you typing faster than any other product on the market!)
- Stunning 2D and 3D graphics
- Life-like keyboard and learning aids
- "Guide Hands" to show you perfect typing technique
- Arcade-quality typing game
- Help Windows available for every stage of every lesson
- Over 15 colorful graphs display your typing progress

Productivity

DeluxeWrite™

Exercise your colorful vocabulary with the first full-function word processor that imports color or black & white graphics from DeluxePaint, Deluxe Library™ art disks or any IFF file. Resize and crop your image right on screen for true WYSIWYG. Due to the custom printer driver, each of the 5 included fonts print at the highest resolution your printer can produce. Plus, each image will print using its unique 32-color palette. Easy to use pulldown menus help you produce sophisticated documents in minutes - use indents, decimal tabs, justification, headers & footers - includes built-in outliner and 90,000-word spell checker. Create your document, rearrange it, tweak it - then add your splash with color graphics.

DeluxePrint™ II

Now only \$79.95

All the tools you need to create cards, signs, banners, invitations, bumper stickers, even T-shirt iron-ons - now better than ever! Includes a new image and pattern editor with Deluxe Paint-like tools, a special "Preview" function to see your creation at actual scale, and a custom printer driver for better resolution and ability to print at any size. Choose from over 100 built-in images, use clip-art from the Deluxe Library art disks or import your creations from Deluxe Paint™ II. Then mix and blend up to 32 colors from the 4,096-shade palette, add a border, change a type font. Control the look of any layout of your text: move it, center it, flip it, box or blend it into a background image. It's like having your own typesetting and paste-up shop!

Lauded by AmigaWorld as the "hands down favorite" of financial management programs, PHASAR is both powerful and easy-to-use. It keeps track of multiple interacting accounts, provides easy savings and loan analyses, net worth, budgeting, helps prepare and even projects income taxes for the whole year. Complete documentation and extensive help screens make it one of the easiest financial programs to use. Built-in intelligence minimizes typing, leaving you more time to enjoy your money. It also keeps track of names and addresses and can remind you of special events such as birthdays and anniversaries.

Professional Page - the most powerful desktop publishing system on the Amiga. This comprehensive system integrates full-featured word processing, precision typesetting, bitmap and structured graphics, and powerful page layout capabilities. Text can be imported from other programs, or created with the built-in on-screen WYSIWYG editor. Text can flow automatically between different sections on a page, from column to column, from page to page; there's even the ability to wrap text around irregular shaped objects. Automatic hyphenation, text styling, kerning, tracking, leading and baseline shifts are just a few of the typesetting features available. Professional Page has a full set of tools for creating and editing structured graphics like lines, rectangles, circles, arcs, ellipses, free draw, polygons and bezier curves. Structured graphics can also be imported from programs like Aegis Draw. Color pictures (256 colors & 4096 colors in HAM mode) are displayed as 16 level grey scale representations. All text and graphic components can be sized and manipulated right on the page in 4 different magnification modes. Professional Page outputs to all PostScript laser printers and typesetters. For the serious desktop publishing user, Professional Page does it all!

TxEd's speed and simplicity have made it a favorite with Amiga owners. You can edit anything with TxEd, from your Startup-Sequence to program source, and even binary files. You can learn to use TxEd in minutes, yet programmers that spend 50 hrs/week editing use TxEd to save time!

TxEd Plus offers POWER that picks up where TxEd leaves off, with configurability and a powerful macro language. Either way, you'll appreciate TxEd as a cornerstone of your multitasking Amiga.

ProWrite is the word processor the Amiga was designed for. From multiple fonts, styles, and colors, to the ability to include IFF graphics in your documents, ProWrite brings creativity to word processing as never before. It takes full advantage of all of the Amiga's features, from multitasking, to pull-down menus, windows, and high resolution graphics, and it has a true "What you see is what you get" display, including the display of headers and footers exactly as they will be printed.

PUBLISHER 1000

Developed by
Northeast Software Group
Marketed by
Brown-Wagh Publishing
16795 Lark Ave., Suite #210
Los Gatos, CA 95030
(408) 395-3838

Now with Publisher 1000, anyone can publish just about anything - painlessly, simply and beautifully. Use any of the great Amiga programs to create your artwork and text. Then simply pour your creation onto the Publisher 1000 page that looks so good no one will believe you did it yourself. Or, use our built-in text and graphics editing capabilities to set your own type, control line spacing, shrink or enlarge pictures, create line rules, crop photos and more. Then, using Preference printer drivers or our new POSTSCRIPT printer capabilities, print your creations on a dot-matrix or laser printer to produce some pretty spectacular materials.

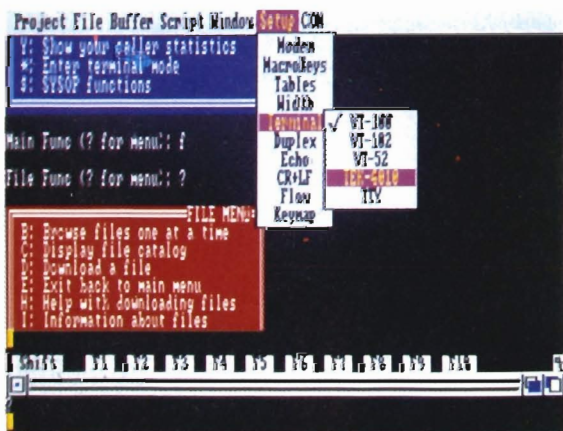

ANALYZE!

Money Mentor

\$95.95 retail
Sedona Software
11844 Rancho Bernardo Rd.,
Ste. 20
San Diego, Calif. 92127
619-451-0151

Money Mentor is a financial accounting system that manages up to 30 separate accounts, keeps track of transactions, computes balances, projects and budgets expenses and alerts a user when a balance or budget has been exceeded.

The program produces comprehensive financial reports in both tabular and graphic form and summarizes account and item transactions, including actuals, budgeted values and variances.

Smart scrolls, a feature based on artificial-intelligence techniques, recognizes frequent transactions. This means *Money Mentor* can complete the logging of new entries based on recalled information. The program utilizes the Amiga's sound, voice, color graphics and mouse input capabilities.

Aegis Animator II™

Metamorphic/Cel Animation
System for the Amiga

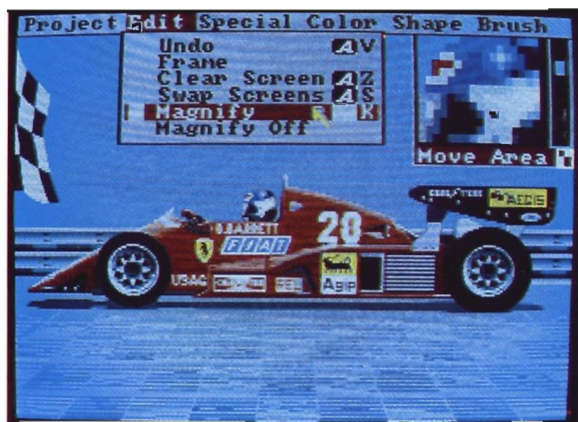

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

Aegis Animator was an award-winning product and now, in the pursuit of excellence, we have Animator II. Like Animator, it supports three kinds of animation: Metamorphic, "Cel," and Color Cycle. The Metamorphic function is unique for animation programs: you choose a beginning shape and position, and an ending shape and position, and the program will figure out the in-between moves for you. The "Cel" capability supports traditional animation techniques: you paint different positions of a subject in a paint program, then transfer the windows to Animator II which can rapidly flip through the windows plus move them about the screen to simulate movement. Animator II's new feature, "Exchange," lets you automatically erase the previous window as you lay a new one down. Other new features — an improved Time requestor which shows the total time of the Animation up to the tween (act) you're in, and also lets you play the animation backwards. And a new Fast Menu, whose options can now be chosen from the keyboard.

Aegis Images™

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

This painting program is designed to meet the needs of the professional computer artist and graphics designer. It has a palette of 32 adjustable colors in 320 x 200 resolution and 16 colors in 640 x 200 resolution. Images' brushes are adjustable and there's even an airbrush with variable magnification, mirrors, and "Cycle Colors" and "Cycle Draw" for animation, and a lot more. Unusual features include "Pantograph" which lets you simultaneously draw images in separate areas, "Tiling" which lets you grab a piece of a picture for use as a pattern, "Antialias" which reduces the "jaggy" effect, to name a few. Images files use the IFF standard for use with other paint and animation packages.

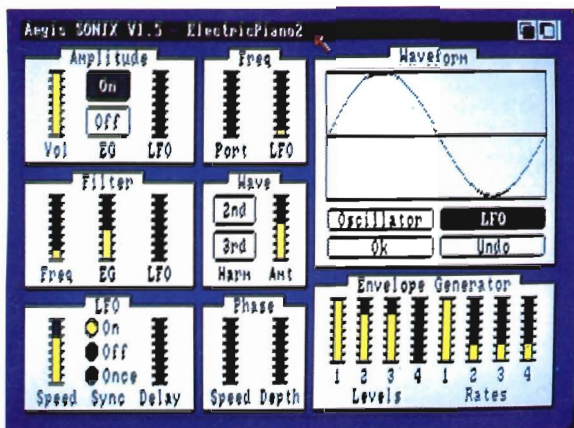

AEGIS VIDEOTITLER

**For the Professional
For the VideoPhile
For Cable TV Productions
For Business Presentations
For Home Videos**

A boon to low-end video post production, VideoTitler supports "poly" fonts which can be distorted in several ways and all Amiga Fonts. Choose from many styles including shadows, outlines, highlights, embossing and a lot more for both the Amiga and "poly" fonts. You can also bring in IFF windows and pictures for use as backdrops which you can also distort. Also included is VideoSEG™ (Video Special Effects Generator) which lets you put everything in an adjustable slide show with many different kinds of fades, wipes and scrolling. VideoTitler supports all screen resolutions including overscan plus the ability for halfbright (64 colors on the screen at once, the bottom 32 being half as bright).

Aegis VideoTitler™

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

Aegis Sonix™

Interactive Musician's
System for the Amiga

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

Make your Amiga sing!

Sonix turns the Amiga into a powerful multi-voice digital synthesizer. It contains a visual waveform editor that previously was only available on expensive professional studio equipment. Sonix is also a music program for creating custom analog instruments and sounds, printing sheet music, composing, and controlling MIDI-compatible instruments. Because Sonix uses the IFF ".smus" format, it is compatible with other music programs that may not have Sonix's sound creation capabilities.

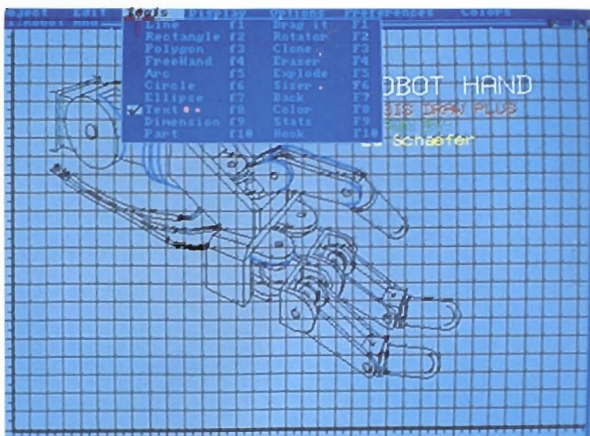

Graphics/Music

Aegis Draw Plus™

Desktop Design Software
for the Amiga

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

Aegis Draw Plus provides a powerful set of professional design tools in a software system that's as easy to learn as a paint program while providing state-of-the-art micro CAD performance. It makes full use of the Amiga environment with pull down menus, multiple windows and screen resolutions, mouse or keyboard input, and much more. Draw Plus is filled with tools and functionality that make it by far the best buy in desktop design software.

Aegis VideoScape 3D™

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

At last, a 3-D animation program for the Amiga. First, you create your own world of 3-D objects or use VideoScape's. Then an easy-to-use control panel lets you choose the light source and both object and camera motions. Switch to the main screen and watch light and shadow play as the objects move against the horizon. Or "fly" around and through the objects — the possibilities of relative motion are endless. It only takes a few seconds for each frame of the animation to build and you can videotape it with a VCR capable of single-frame recording. Can't afford the equipment? No problem: VideoScape includes ShowAnim™ which plays back the frames in a real-time slide show.

Graphics/Music

BAUDVILLE'S

Award Maker Plus

5380 52nd Street, SE
Grand Rapids, MI 49508
(616) 957-3036

Award Maker Plus includes:

- Easy-to-follow instructions to create awards for any occasion.
- Hundreds of different awards and certificates to pick from for sports, school, home and business; for serious and fun events.
- Several styles of black and white or color borders.
- Sample awards to whet your imagination... AND a special price on pin-feed parchment paper to make your next award a standout.
- Free gold embossed press-on seals.
- Capability to create name files and print out awards for an entire class or group.

Show your thanks for the hard work, the extra effort, the special accomplishment, for being part of the team.

Get the maximum graphics power from your Amiga. Create stunning, lifelike computer artwork with Digi-Paint, the first full-featured 4096 color (Hold-and-Modify) paint program. Break the "32 color barrier" and finally realize the potential of your Amiga with Digi-Paint.

Find out why Byte Magazine called Digi-Paint "Remarkable".

TEXTURE™

by Roger Powell

MAGNETIC MUSIC
RD #5 Box 227A
Mahopac, New York 10541
(914) 677-8586

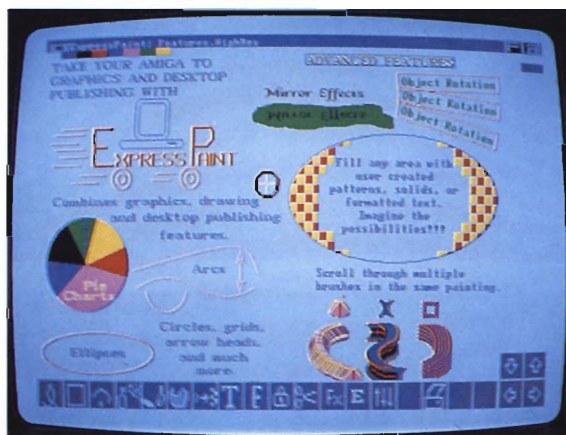

\$199.95 suggested retail

Requires: 512K RAM
Roland MPU-401 MIDI interface
MIF-AMG adaptor

TEXTURE is the first truly professional MIDI music software system for the Amiga computer. With features like Real Time Recording, sophisticated editing, a simple Menu/Keystroke driven interface, record buffer, the Undo function and Full Real Time interaction, TEXTURE turns ideas in your head into complete songs faster than any other sequencer available.

The basic idea behind TEXTURE is that notes are recorded into *patterns* and *patterns* are assembled into *songs*. While a pattern is looping you can record on any of its 24 tracks, and you can copy, block move, transpose, quantize, filter and set changes in tempo, dynamics and articulation *without ever stopping!*

All in all, TEXTURE is the leader in Professional MIDI Music Production Software.

Express Paint! The advanced program that combines features of both desktop publishing and paint programs in a single, economical package. This combination offers the ultimate in a powerful Paint program with increased capabilities including that of "typesetting" text files created by the Notepad or other editors. Its unique Overlay mode saves precious memory. PAR Software's Express Paint! — a friendly, state of the art program for creating newsletters, images, posters and business reports.

Graphics/Music

TV*TEXT

Developed by
Zuma Group Inc.
Marketed by
Brown-Wagh Publishing
16795 Lark Ave, Suite #210
Los Gatos, CA 95030
(408) 395-3838

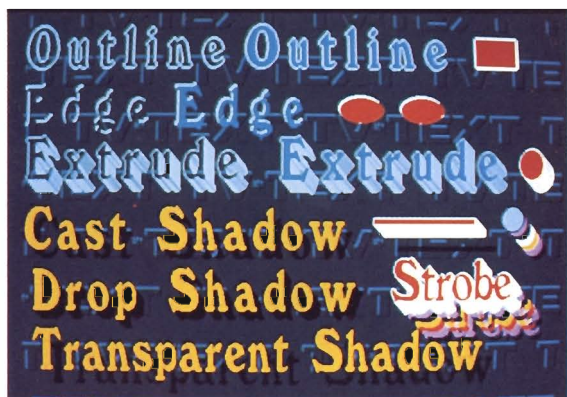

TV*TEXT is the perfect character generator for Amiga users creating graphic or video presentations. Choose from 9 high-quality typefonts (or any others on the Amiga), select the size, color and look you really want (drop or cast shadow, multicolored strobe, 3-D extrusions, rotated, centered, etc.), and presto - TV*TEXT draws it for you!

With complete IFF compatibility, TV*TEXT can improve the appearance of any DeluxePaint, Acgis Images or other graphic output. Create backgrounds, special effects and fantastic lettering in high or medium resolution with overscan support! For video buffs, TV*TEXT supports Genlock, NTSC and PAL.

TV*SHOW

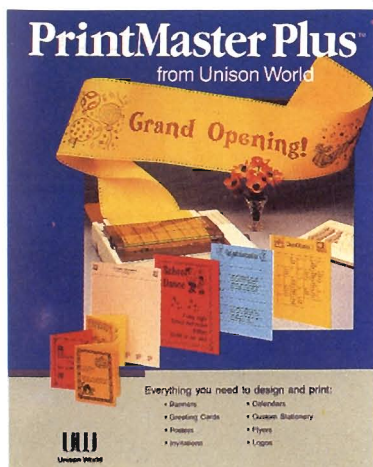

Developed by
Zuma Group Inc.
Marketed by
Brown-Wagh Publishing
16795 Lark Ave., Suite #210
Los Gatos, CA 95030
(408) 395-3838

Make a professional video presentation with the Amiga and TV*SHOW. The player program will take any IFF screens, in any resolution, and flash them across the screen in more ways than you can ever imagine. Wipes, fades, reveals, pushes, cuts, fades, color cycling and object animation are some of the special screen effects available.

Build the script, test the script, change the script. It's so easy and fun because TV*SHOW uses the same type of wonderful user-interface that has become a Zuma Group trademark. TV*SHOW supports Genlock, NTSC, PAL, overscanned screens and HAM screen transitions.

PRINTMASTER PLUS UW

Unison World
2150 Shattuck Avenue, Suite 902
Berkeley, CA 94704
(415) 848-6670

PrintMaster Plus gives you the tools to create exciting cards, stationery, posters, banners, even calendars. You have more creative options — 9 type fonts, 11 borders, and over 120 graphics — and the graphic editor lets you modify existing art or develop your own. You can use the design elements in any order you please. And you can preview your efforts without waiting until your design is completed. So try PrintMaster Plus and advance your freedom of expression!

Education

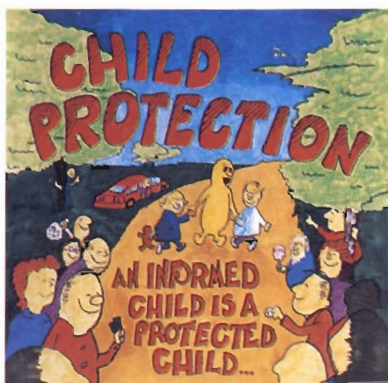

*Exciting new ways to learn — for
both children and adults.*

Child Protection

19511 First Drive SE
Bothell, WA 98012-7005
(206) 481-4862
Wholly owned subsidiary of:
Decker Resources Ltd.
Vancouver, B.C. V6C 1V5
\$19.95 Suggested Retail

Child Protection is a very important breakthrough in the use of the computer to help teach children essential personal safety. Such safety ideas as not accepting rides from strangers, wandering away and related actions are presented. LP and his friend, Johnny then tell the child what is the proper thing to do. After this informative phase, the child is asked to choose the proper action that Johnny should take as he encounters these situations. LP then affirms correct responses.

...THIS TALKING PROGRAM
WILL DO JUST THAT... PLAY IT...
LISTEN TO IT THEN WE'LL BE WORKING
TOGETHER TO PROTECT YOUR
CHILD!!!

LITTLE BO PEEP

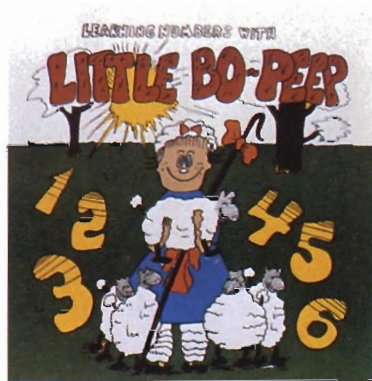

19511 First Drive SE
Bothell, WA 98012-7005
(206) 481-4862
Wholly owned subsidiary of:
Decker Resources Ltd.
Vancouver, B.C. V6C 1V5

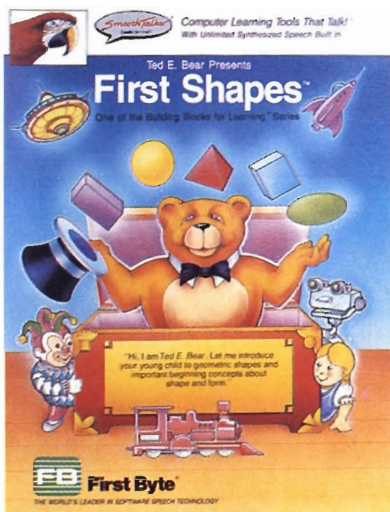

\$19.95 Suggested Retail

You will learn to count Bo Peep's sheep. The program is divided into 4 levels and 2 sub-levels of proficiency allowing the child to learn to count from 1 to 10, and from 1 to 25, both randomly and in numerical sequence.

The speed of the program can be accelerated as practice increases the child's ability to count.

WE'LL LET'S TALK
MY NAME IS LP... WANT TO KNOW
NAME I'VE ACTUALLY LOST YOUR NAME
AND TALK TO YOU AS WE GO THROUGH
THIS PROGRAM....

First Shapes

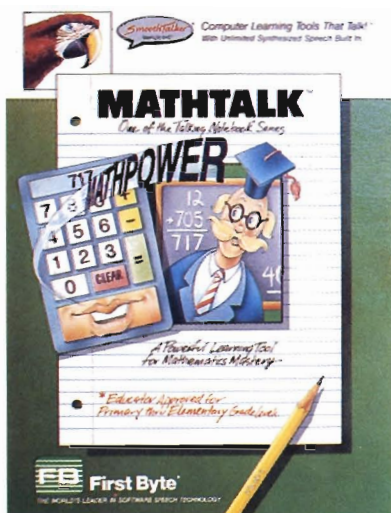

First Byte

2845 Temple Avenue
Long Beach, CA 90806
(213) 595-7006

Suggested retail price:
\$49.95

Meet Ted. E. Bear, a talking computer friend who introduces young children to the world of geometric shapes. Through Ted's helpful spoken messages and encouraging words, children independently use geometric shapes to build toys. Each child has their own *Toy Box* where the toy maker decides which toys to save, print or delete. Children can accompany Ted to the *Toy Fair* where they identify special shapes and send Ted flying! In the *Make-A-Match* Game children match shapes and toys playing by themselves, with Ted E. Bear, or with a friend. Adult helpers can customize First Shapes for each child including setting spoken reward messages, learning modules and speech controls.

One of the Talking Notebook

Professor Matt A. Matics of MATHTALK fame is back again! This time he's ready to help you master Fractions, Decimals and Percents. You enter your own problems to check your homework. The Professor has also cooked up some exciting games that challenge you to solve all types of problems, particularly those that show the inter-relationship between Fractions, Decimals and Percents. Get ready for new confidence in math class as you check your work in the *Problem Factory*, meet the Team Challenge, out-wager the Professor in *Fraction Shuffle* and get the highest score in the *Fun House*.

Available on the Macintosh, Atari ST, Amiga, and Apple //GS.

Suggested retail price:
\$49.95

First Letters and Words™

One of the Building Blocks
for Learning Series
For Children Ages 3-8

First Byte

Ted E. Bear stars in First Letters and Words as he teaches young children letter and word recognition. With his help children recognize and use both the upper and lower case letters of the alphabet and begin reading whole words. Children accompany Ted through *Dinosaur Surprise*, a *Card Circus* and to the *Magic Letter Machine*. His amazing speech capabilities help them independently solve problems by hearing, seeing, and reading words and simple sentences. Adult helpers customize the learning activities for each child including setting spoken reward messages, learning modules, and speech controls. First Letters and Words gives each child the opportunity to become an independent reader.

Barbarian is a unique and richly animated fantasy graphic adventure featuring stunning background graphics and an array of unusual playing features including extensive character animation and user controlled context-sensitive action sequences.

You become Hegor, the legendary dragon slaying Barbarian travelling through Durgan, a dark world of twisting labyrinths where Necron's bloodthirsty army of monsters and mutants wait at every turn to oppose your progress. You'll have to be braver, more resourceful and more skillful in battle than ever to repel their attacks and to avoid their cunning, diabolical traps on your perilous journey to re-claim your kingdom's crown.

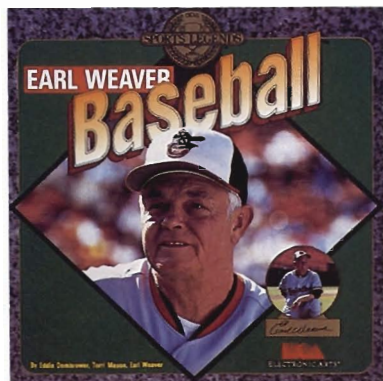

Earl Weaver Baseball

by

Eddie Dombrower
and Earl Weaver

When we set out to make the best baseball game ever, we went straight to the source: Earl Weaver, modern baseball's winningest manager. Here's real baseball excitement for the action and strategy fan. More stats than the Sunday sports page. Better graphics, action and special effects than network play-off coverage. Complete with 26 real big-league ball parks that you can modify to best suit your team. Play against a friend, or take on Earl Weaver himself with computing's most sophisticated baseball A.I. ever. Control and manage all the big league talent from past and present (optional team and season data disks available) or choose the managerial simulation that puts you right in the dugout. Special effects like digitized speech, changing wind effects, even slo-mo instant replays make this one game that really takes advantage of the power of the Amiga. Earl Weaver Baseball, the new standard in sports software — a legend in the making.

Autoduel®

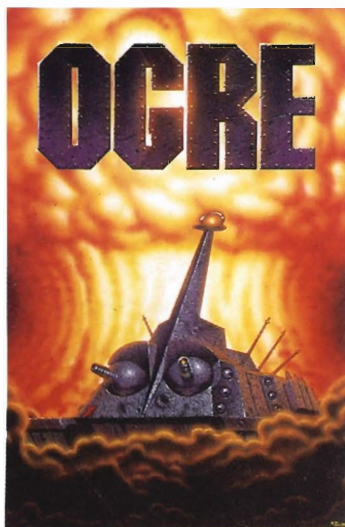

136 Harvey Road
Londonderry, NH 03053
(603) 644-3360

\$50.00 suggested retail

A computer adaptation of Steve Jackson Games' award-winning Car Wars® board game. Set on the future highways of the Northeast, Autoduel is a fantasy role playing game that lets you custom build your own cars and then battle with other cars in the arena or on the road. As you improve, your prestige, marksmanship, and driving ability all reflect your growing success.

Once you're behind the wheel, the action is fast and furious. Only the most skilled drivers will be contacted by the authorities and special interest groups to carry out important assignments of a highly sensitive nature.

Drive offensively!

Ogre®

136 Harvey Road
Londonderry, NH 03053
(603) 644-3360

\$40.00 suggested retail

A computer strategy game for one or two players, Ogre® is an adaptation of the Steve Jackson board game of the same name. Long considered a classic among strategy gamers, Ogre epitomizes simplicity and play balance. One side defends a command post with a variety of conventional armored forces while the opponent attempts to overrun the command post using a single Ogre — a cybernetic nuclear super tank.

In the one player version the computer uses advanced artificial intelligence techniques to control the Ogre against a human player's defense forces. It does not lose very often.

AmigaWorld is a unique magazine for everyone who wants to get the most from their Commodore Amiga. AmigaWorld is the authority when it comes to the Amiga computer. Each issue is filled with informative articles, tutorials, hints and tips, reviews of Amiga hardware and software, news about what is coming in the future, and exclusive information about the entire Amiga product line. AmigaWorld is an invaluable resource for all owners of the Amiga.

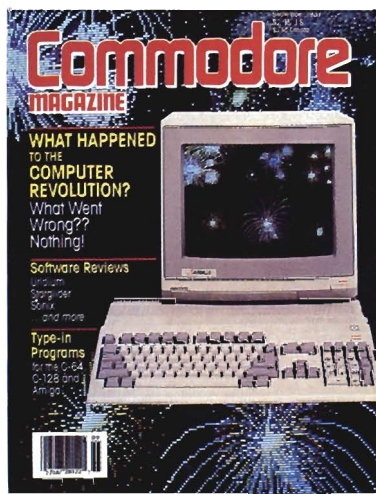

M.W. Ruth

M.W. Ruth Company Inc.
3100 West Chapel Avenue
Cherry Hill, NJ 08002
609/667-2526

This *comprehensive discount catalog* was written as an encyclopedia, to be used as a reference guide.

- Amiga software/hardware
- Printers, monitors, disks, accessories/supplies
- Amiga covers with logo
- 3 1/2" continuous disk labels
- Classic Compu continuous greeting cards and parchment paper
- Additional discounts for users groups such as the Amiga Users Group of SJ (68000)
- Many items in catalog will not be found anywhere else
- We stock what we sell, for fast delivery
- FREE catalog, just write or call!

commodore MAGAZINE

1200 Wilson Drive
West Chester, PA 19380

To order call toll-free 1-800-345-8112

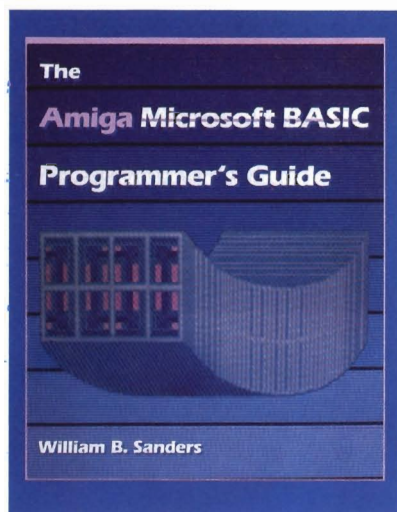

Learn, discover and explore all your computer has to offer with Commodore Magazine. A solid reputation among Commodore computer owners. Official endorsement by Commodore itself. That's why Commodore Magazine is one of the top ten computer magazines in the U.S. Over 6 million Commodore owners worldwide are its target readership. And these readers want it, look for it, use it. Commodore Magazine provides software reviews, free programs to type and save, do-it-yourself projects and buyer's guides, plus much more for information-hungry Commodore owners.

The Amiga Microsoft BASIC Programmer's Guide

by William B. Sanders

© 1987, 304 pages, softbound, \$19.95
18523-0. To order, or receive a free
catalog, contact Scott, Foresman &
Co., 1900 E. Lake Ave.,
Glenview, IL 60025.

Learn to create your own programs on the Amiga with Microsoft's powerful BASIC. This book guides you from the elementary statements all the way to advanced concepts and uses. Written in a clear, friendly manner for both novice and experienced programmers, this book provides numerous program examples and many practical applications programs you can really use. Special attention is given to the Amiga's color graphics and voice synthesizer.

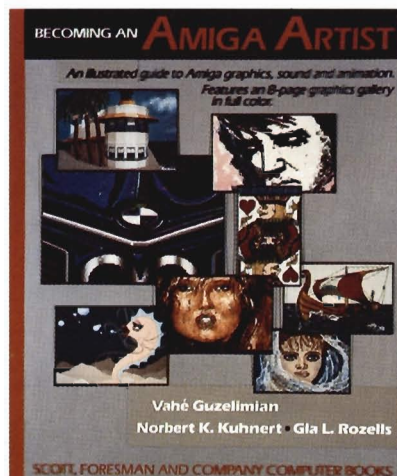

Becoming An Amiga Artist

by Vahé Guzelimian,
Norbert Kuhnert,
and Gia Rozells

© 1987, 280 pages, \$19.95, 18527-3. To order, or
receive a free catalog, contact Scott, Foresman & Co.,
1900 E. Lake Ave., Glenview, IL 60025.

Use your Amiga to produce artwork you've only imagined until now. This unique reference guide helps both beginners and advanced users create professional looking charts, graphs, paintings, and technical drawings, computer digitized images, computer animation, sound, and speech on the Amiga.

Full of tricks and tips not found elsewhere, *Becoming An Amiga Artist* includes over 100 black and white and color illustrations that detail step-by-step instructions and many programs to input, follow, and adapt.

Section 7

Telecommunications

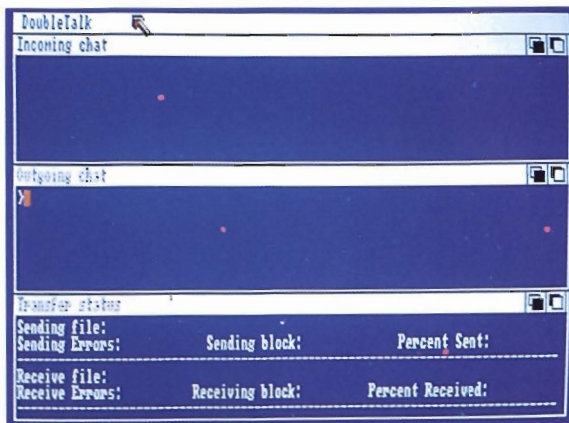

Get the answers to all your questions on-line with easy-to-use telecommunication services. Reference material, software reviews, games and new technology—all are available to you.

Telecommunications

DIGA!™

Emulation software
for the Amiga

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

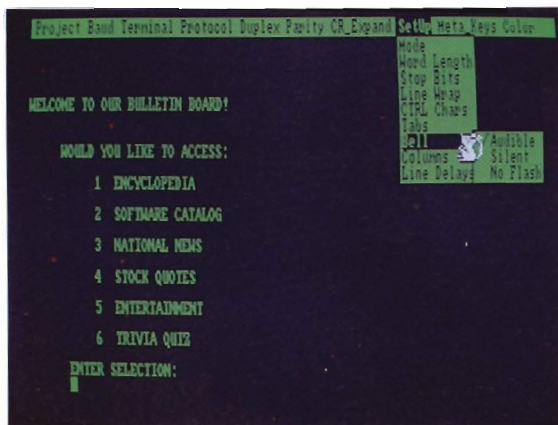

Diga! combines both sophisticated terminal emulation and telecommunications into one powerful system. VT-52, VT-100, and Tektronix (including graphics) terminal emulations allow high-speed communications with mini and mainframe computers. Diga! has been designed to make communications fast and easy. The exclusive Doubletalk™ mode allows two Amiga users to simultaneously transfer data or program files in both directions while chatting via keyboard — all using one phone line and a standard 300, 1200 or 2400 bps modem. So get connected — with Diga!

Amigaterm

Commodore-Amiga, Inc.

\$49.95 suggested retail

This is an easy-to-use yet sophisticated emulation and telecommunications package that turns your Amiga computer into a terminal emulator at the touch of a button. You can select up to 130 columns to be displayed on the screen. Pull-down windows make operations simple. The package supports X-modem and CompuServe B protocols.

Telecommunications

MENU®
The International Software Database
